Important Information

This module provides dimensional information for Midmark dental equipment.

To determine the minimum space required for a chair mounted operatory...

STEP 1: Turn to the page for the desired equipment.

STEP 2: The ***Minimum Required Dimensions*** chart indicates the MINIMUM space required for this piece of equipment. These measurements do not provide for workspace around the equipment.

Record the required length & width dimensions *(from chart)* for all equipment to be included with the operatory.

STEP 3: Determine the LARGEST length and width measurements recorded in Step 2 *(from all required equipment).*

This is the MINIMUM space required for the operatory.

Example:
Minimum Length..... 84.5 in.
Minimum Width..... 45.5 in.

Description	Minimum Required Dimensions: Length	Width
Midmark Dental Chair *(Headrest fully retracted)*	75 in. (190.5 cm)	27.5 in. (69.8 cm)

Description	Minimum Required Dimensions: Length	Width
Midmark Dental Chair w/LR Mtd Delivery Unit *(Headrest fully retracted)*	84.5 in. (245.1 cm)	41.5 in. (105.4 cm)

Description	Minimum Required Dimensions: Length	Width
Midmark Dental Chair w/LR Mtd Light *(Headrest fully retracted)*	79 in. (200.6 cm)	45.5 in. (115.5 cm)

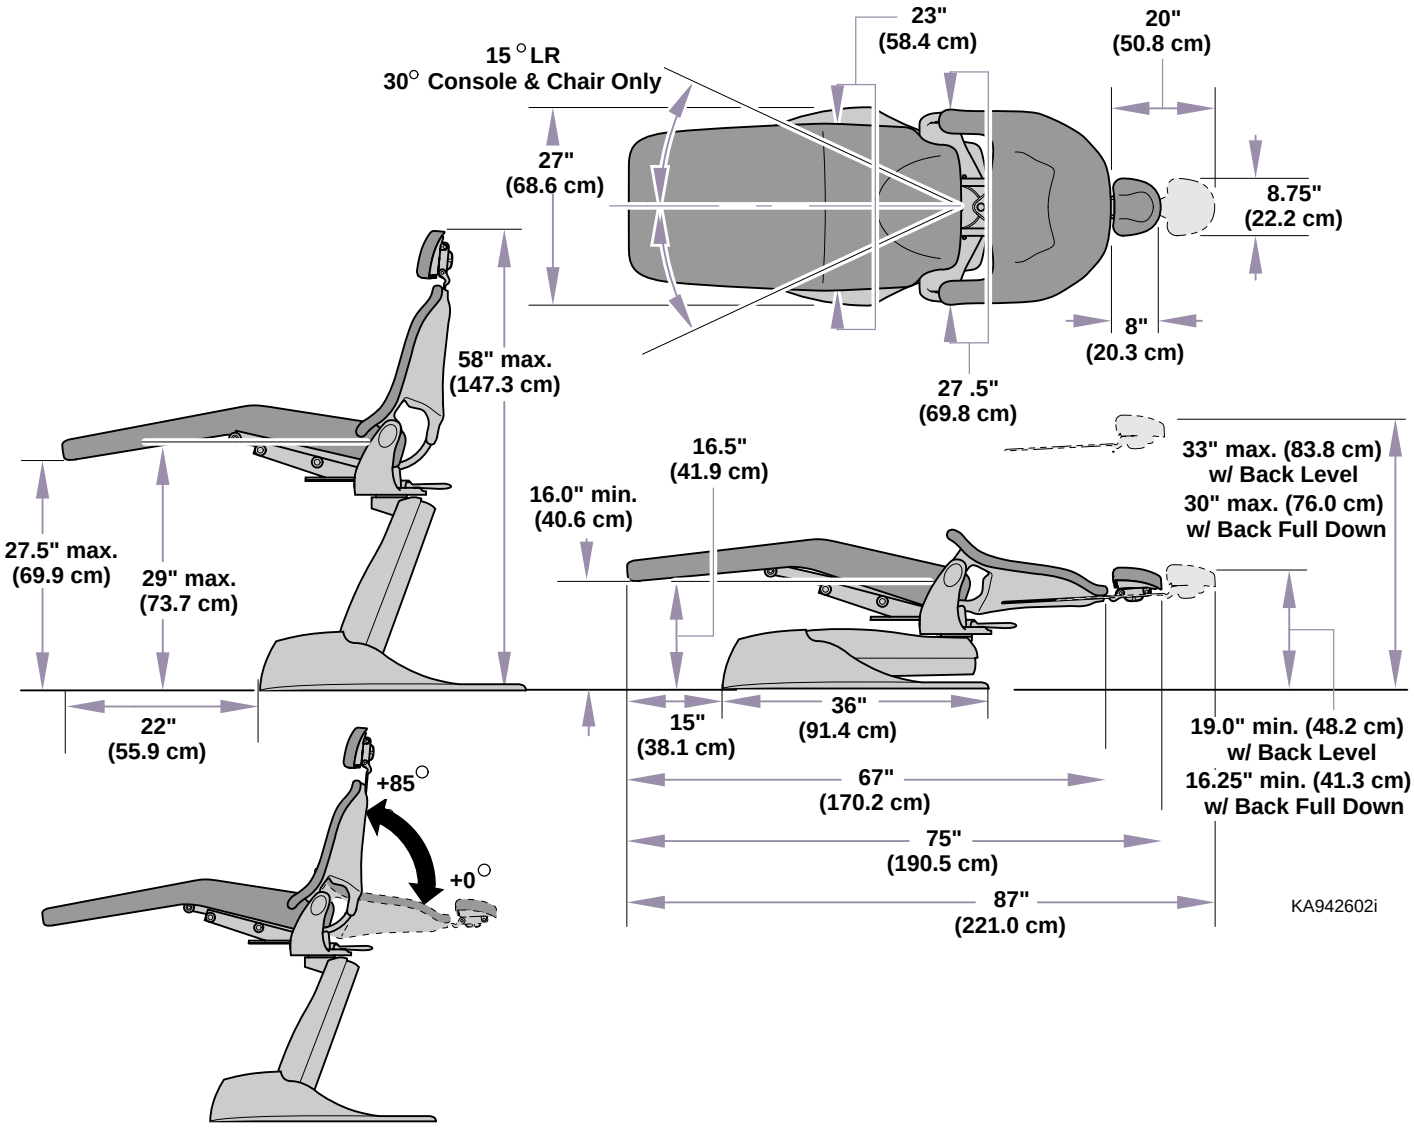
© Midmark Corporation 2003

Chair: *Midmark Dental Chair*

Refer to the page(s) for all required equipment. Record the largest Length and Width dimensions (from the Minimum Required Dimensions column) to determine the minimum space required for an operatory.

The dimensions in the table below are approximate and include the listed equipment only. Workspace around the operatory is not included in the dimensions.

Description	Minimum Required Dimensions	
	Length	Width
Midmark Dental Chair *(Headrest fully retracted)*	75 in. (190.5 cm)	27.5 in. (69.8 cm)



Delivery Unit: *Console Mounted*

(ProCenter & Whip-style)

Refer to the page(s) for all required equipment. Record the largest Length and Width dimensions (from the Required Dimensions column) to determine the minimum space required for an operatory.

The dimensions in the table below are approximate and include the listed equipment only. Workspace around the operatory is not included in the dimensions.

Description	Minimum Required Dimensions	
	Length	Width

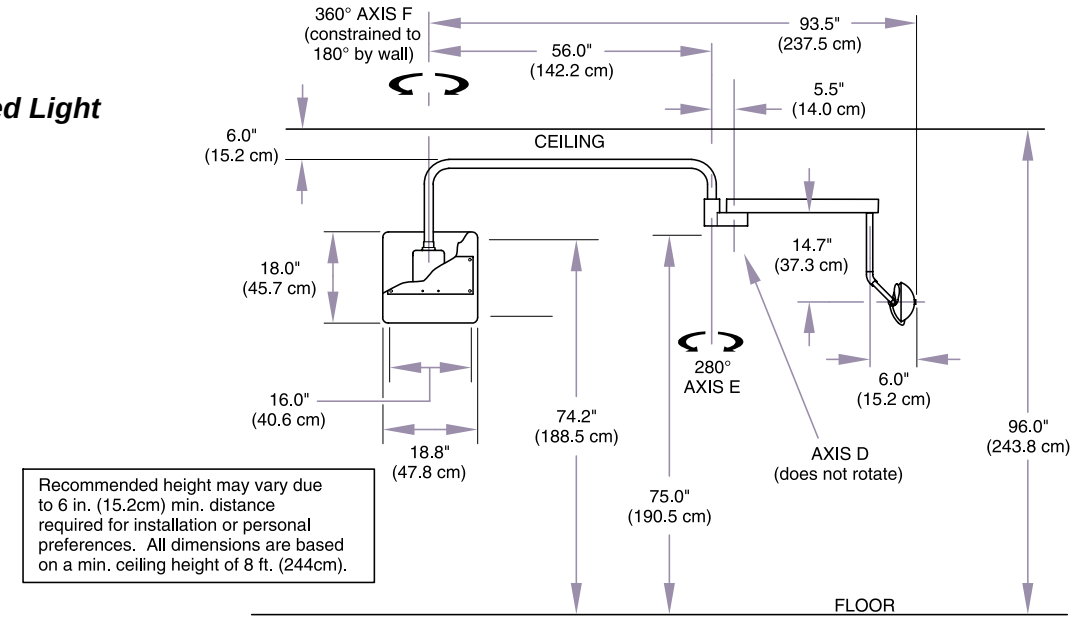
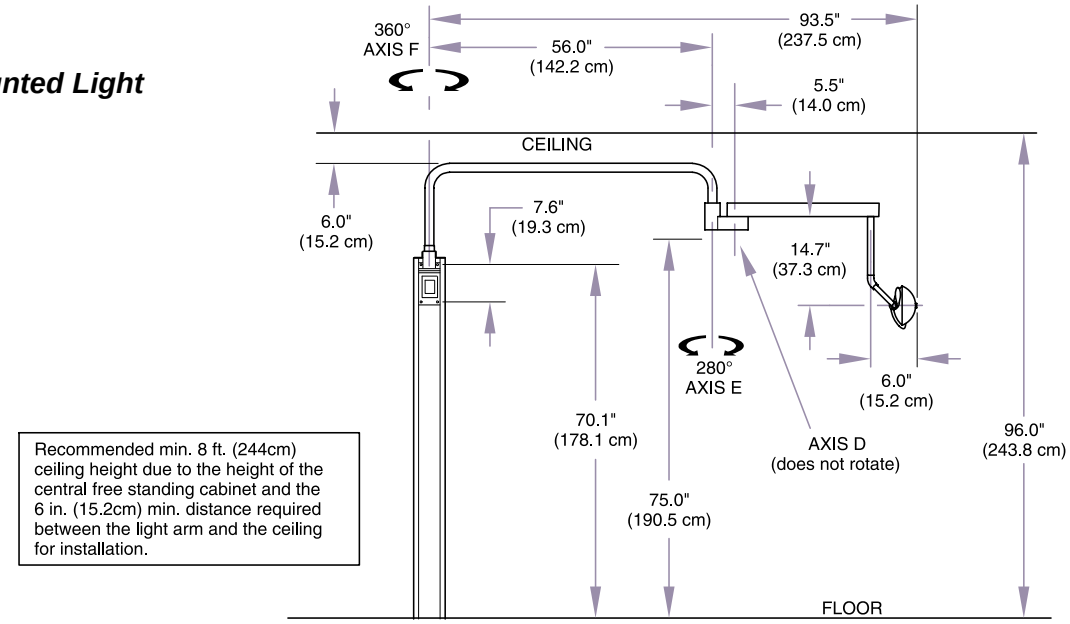
Light: *Wall / Cabinet Mounted*

Wall Mounted Light



Recommended height may vary due to 6 in. (15.2cm) min. distance required for installation or personal preferences. All dimensions are based on a min. ceiling height of 8 ft. (244cm).

Cabinet Mounted Light



Recommended min. 8 ft. (244cm) ceiling height due to the height of the central free standing cabinet and the 6 in. (15.2cm) min. distance required between the light arm and the ceiling for installation.
